	ADDITIONAL ACTIVITY FOR MODULE 3							
	Activity: Compare major causes of death among							
	children under 5 for Nigeria and one developed country?							
	Anguary							
	Answer:							
	Causes of death among children under							
	5 in Nigeria in the year 2000 are:							ľ
	4. Detects to Continue							
	1: Enteric infections2: Respiratory infections & TB							
	3: Maternal & neonatal.							
	Causes of death among children							
	under 5 in Nigeria in the year 2019 are:							
	1: Maternal & neonatal							ľ
	2: Enteric infections							
	3: Respiratory infections & TB.							
	Enteric infections is not the leading causes of death							
	among children under 5 in 2019 as it was in 2000.							
	And for United Kingdom (UK)							
	Causes of death among children							
	under 5 in United Kingdom							
	in the year 2000 are:							
	1: Maternal & neonatal2							
	2: Other non-communicable							
	3: Respiratory infections & TB							
	The courses of death among shildren under							
	The causes of death among children under 5 in United Kingdom in the year 2019 are:							
	o in Officed Kingdom in the year 2015 are.							
	1: Maternal & neonatal							
	2: Other non-communicable							
	3: Respiratory infections & TB							
	This means that Maternal & neonatal problem							
	remains the leading cause of deaths of children							
	under 5 in United Kingdom between 2000 & 2019

	which advise do u give to families which are so cultural									
	on matters of feeding like some family members donot									
	eat fish,or any meat and others donot completely eggs									
	because of their cultural and family beliefs? Also some									
	members of certain community donot use latrines ,and									
	many people in acertain community believe diarrhoea is									
	the result of disobedience from their ancestral gods									
	hence people are dieying and spreading the menace to the community moreover elders convene meetings upon									
	such challenge while sayinfg same issues of misconduct									
	from the society members,
