

Activity 2. Prevention and control of water-borne diseases (part 2)

List the names of your group members and then write your answer

Group 1

↻ **Group one 1**

Vianney Malek
Darasalem Yakub
Fellicient

1. Over crowding
2. poor sanitation skill
3. lack of common site for waste disposal
4. lack of medication on the important of proper waste disposal

Group 2

↻ **NANIA AYUB, INZONE KAKUMA**

Most sanitation challenges in my community

1. Lack of access to basic sanitation.
2. over crowdness.
3. Environmental impacts.

Group 3

↻ **Most important sanitation challenges in my community (Kakuma Refugee camp) are;**

- 1- Poverty.
- 2- Inadequate finance.
- 3- Overpopulation.

name of group 3 members at Inzone kakuma Kenya are.

- 1- Makuei gatdor
- 2- pham Hoth
- 3- Thak Loal
- 4- Difa salaman

↻ **NB: We shall explain more about the 3 most important sanitation challenges here in kakuma refugee camp during the speak up session.**

Group 4

↻ **INZONE, KAKUMA**

Difan Suleiman
Micah Idriss

Most important sanitation challenges in my community are;

- Cultural and Ethnic Diversity.
- Inadequate Sanitation facilities.
- Water Scarcity

Group 5

⇨ **DIFFA STUDY CENTER NIGER REPUBLIC**

Most important sanitation challenges in SAYAM CAMP DIFFA Niger republic

GROUP MEMBERS

1. Hashimu Mohammed
2. Goni Mustapha
3. Zubairu Sani
4. Umar Muhammad

1. Negative participation of people towards environmental sanitation
2. Inadequate bucket latrine for easy faecal sludge collection
3. Access to safety trucks and nature of the soil topography

Group 6

⇨ **DIFFA STUDY CENTER NIGER REPUBLIC**

most important sanitation challenges in our community of SAYAM Refugee camp

Group members

1. Ali Muhammad Cheri
2. Yagana A. Umar
3. Hamisu Muhammad
4. Hamsatu Abubakar Hamme
5. Tijjani Mohammed

1. Lack of sanitation facilities
2. Lack of people's interest on community service
3. Topography and nature of the soil does not support most sanitary aspect especially using safety truck

Group 7

⇨ most important sanitation challenges in our community of SAYAM Refugee camp

Group members

1. Mele Ajama
2. Lukman Musa
3. Bello Sani
4. Ali Shuaibu

1. Lack of sanitation facilities to assist in the sanitation activities
2. Lack of people's interest on community service or voluntary works
3. Soil structure and nature of the soil texture does not support most sanitary aspect especially using safety trucks

Group 8

⇨ **Group members are: Maysoon Al khateeb, Heba Debo, Ayah Al zoubi and Ahmad Alobidat.**

The most important sanitation challenges in our community include water scarcity, Jordan is one of the most water-scarce countries in the world, and this scarcity affects sanitation services.

As refugees in Azraq camp, most families rely on shared toilets. Also, water pollution and untreated sewage pollution lead to the spread of waterborne diseases.

Group 9

⇒ **Azraq (Bahaa, Fatima Al-Mousa, Fatima Al-Ali, Ayham)**

1. Improper sanitation facilities, such as toilets and latrines, are crucial for preventing the spread of diseases like cholera.
2. Random watershed can degrade water quality, harm aquatic life, and affect human health. This can come from urban runoff.
3. Struggles with the collection, treatment, and disposal of solid waste, including household garbage.
